

# Deployable Ballistic Partitions

Ballistic Glass and Armor Solutions has incorporated vast Ballistic experience into the design and production of this new line of Deployable Ballistic Partitions. These are designed to be aesthetically pleasing and unobtrusive, BUT, provide Full Ballistic Protection when and where it is needed!

- NIJ Level III and UL Level 8 Protection!
- Rejects over six rounds of 7.62 x 51 .308 Rifle!
- 100% Ballistic Protection even between units!
- ZERO Spall on the Secure Side!
- Stable under fire, will not tip over!
- Exclusive BGAS Interlocking Design!
- Cannot breach with "Bull Rush" when locked!
- Ballistic A6000(TM) Steel on the Attack Face!
- Easy roll and Lockable Casters!
- One person positioning!
- Handles on Secure side allow reaction under fire!
- Your choice of Powdercoat Color!
- Beautiful... but full Ballistic Protection!
- Available in 36 inch or 24 inch widths!
- Stands a full 72" Tall!
- Even the 36" and 24" will interlock together!

# Deployable Ballistic Partitions

Place these side by side and create a 100% Ballistic Partition! Designed to overlap and interlock for ZERO Ballistic Penetration across the face! Even a "bull rush" by a crowd won't get through! Laser cut A6000(TM) Ballistic Steel has smooth edges, and radiused corners with beautiful powdercoat finish! Your choice of color! We even have an optional drop down shield to take protection to the floor!

Place these corner to corner and create a 100% Ballistic Partition... at right angles! Our Optional CornerSafe pieces are designed to attach as securely as our side by side method. A nice, clean corner look using our A6000(TM) Ballistic Steel assures absolute security... and a professional look.

The CornerSafe pieces are self contained and include their own carry handles for quick deployment and configuration... wherever you need protection!

FIVE Rounds of 7.62 x 51 Rifle from under 20 feet completely rejected with ZERO spall on the secure side! Smooth as a Baby's... well... you know! For good measure we put another round in the frame!

**100% PROTECTION**  
When and where you need it!
